

At Home Livestreaming Kits Solutions during COVID-19

Protect your personal brand by adding value to your livestream.

Many venues are on lock down due to the pandemic, leaving celebrities, CEOs, politicians and professionals subject to harsh lighting, poor-quality audio and lackluster web cams. We've developed many solutions to enable presenters to professionally stream based on their digital event needs. Our plug-and-play solutions include varying degrees of technical support during project planning, as well as during install, testing and streaming.

Entry Level

Designed to address our most commonly heard complaint - poor audio quality, the Basic kit enables presenters to be clearly heard and understood.

Includes:

- Laptop (PC or Mac) preloaded with popular streaming software and necessary drivers
- Lapel Microphone
- USB to Microphone Adapter
- Ships in 1 package

Professional

This solution is designed for those who require strong audio and visual presentation with simple DIY set-up and 1080 Full HD transmission.

Includes:

- Laptop (PC or Mac) preloaded with popular streaming software and necessary drivers
- Sony Professional Camera w/ Tripod
- Shotgun Microphone
- Camera to Laptop Connection
- Ships in 3 packages

Add-on Packages

- Lighting kits available with 1, 2, or 3 (1x1) LED light panels
- 10' x 12' adjustable Green/Black/White backdrop kit
- Custom backdrops (pricing available upon request)

Custom Solutions

Create a highly engaging live event including preproduced content, audience interactivity and a scalable end-to-end solution to distribute on any digital platform to any size audience. As your trusted live production provider, PRG is able to integrate expertise and technology from multiple markets, resulting in a more immersive and impactful viewing experience.
